PT. LINTAS SAGARA BIRU

About Us

PT. Lintas Sagara Biru is a leading supplier and service provider specializing in high-quality marine offshore hardware, industrial tools, and safety equipment. Dedicated to serving the demanding requirements of the global maritime, oil and gas, and heavy industry sectors, we ensure that our clients operate efficiently, reliably, and, most importantly, safely.

Our commitment extends beyond just supplying products; we aim to be a trusted partner in minimizing operational risks and enhancing workplace safety through superior quality control and prompt service delivery.

PT. LINTAS SAGARA BIRU

Vision

To be the trusted and leading global partner in the marine and offshore industry, recognized for providing certified hardware and safety solutions that ensure operational excellence and zero-harm environments.

Mission

- **Safety & Compliance:** To consistently supply the highest quality, internationally certified hardware, tools, and PPE that adhere strictly to global safety and regulatory standards (e.g., IMO, API, DNV).
- **Reliability & Support:** To maintain exceptional supply chain reliability, providing prompt delivery and expert technical support to minimize client downtime and maximize asset integrity.
- **Innovation & Value:** To continuously source and provide innovative and cost-effective solutions that enhance the efficiency, longevity, and safety performance of our clients' operations.

What We Do

Ensuring Operational Excellence and Safety at Sea, we are the critical link between high-stakes marine operations and the essential, certified equipment required to keep them running safely and efficiently. We specialize in providing a full lifecycle solution for hardware and safety needs across the maritime, oil and gas, and heavy industrial sectors.

Our Commitment: Quality, Safety, and Reliability

At lintas sagara biru, our commitment to industry leadership and innovation drives our success and sets us apart in the global marine sector. We continually push the boundaries of technology and operational excellence to deliver superior energy solutions. Here's how we lead the industry and foster innovation:

Uncompromising Quality

Every product we supply undergoes rigorous quality checks to meet or exceed relevant ISO and industry-specific certifications.

Safety First

Our mission is directly tied to the safety of our clients' personnel and assets. We only supply equipment that demonstrably enhances the safety culture of an operation.

Operational Reliability

We maintain a robust inventory and efficient logistics network to ensure prompt delivery, minimizing costly downtime for our clients globally.

Technical Expertise

Our team consists of industry veterans who provide expert consultation, helping clients select the most appropriate and compliant products for their specific needs.

Why Choice Us

Feature	Description
Comprehensive Inventory	A single source for all critical marine hardware and safety needs, simplifying procurement.
Global Standards Compliance	All products are compliant with major international marine and safety regulatory bodies.
Rapid Response & Logistics	Dedicated supply chain management ensures materials are delivered quickly to ports and remote sites worldwide.
Customer-Centric Service	We build long-term relationships through transparent pricing, tailored solutions, and reliable after-sales support.
